

SUMESH SHRESTHA

Software Developer

Shreekhandaapur, Dhulikhel | +977 9861893989 | sumeshstha94@gmail.com | github.com/Sumeshstha | sumeshshrestha.com.np

SUMMARY

Aspiring Full-Stack Developer with hands-on industry experience gained through a Developer Internship at Blanxer Technology Pvt. Ltd. Skilled in building scalable web applications using .NET, JavaScript, React, Node.js, and RESTful APIs. Strong understanding of object-oriented programming, database management, and modern software development practices with a passion for developing efficient and user-focused solutions.

EDUCATION

High School (+2 Science) 2019 - 2021

Khwopa Secondary School (KSS)
Dekocha, Bhaktapur

Bachelor in Computer Engineering Feb 2022 - May 2026

Kathmandu University, Dhulikhel

EXPERIENCE

Developer Intern Jan 2026 – Apr 2026

Blanxer Technology Pvt. Ltd.

- Contributed to the development and optimization of real-world web applications using modern development practices.
- Implemented new features, fixed bugs, and improved application performance in collaboration with the development team.
- Worked with RESTful APIs, debugging tools, and version control systems during the software development lifecycle.

ACADEMIC-PROJECTS

Pneumonia Detection System

- Developed a deep learning-based medical imaging system for pneumonia detection using chest X-ray images, featuring a React frontend for image upload and result display, and a Django backend for inference processing and database integration.
- Trained a Convolutional Neural Network (CNN) using TensorFlow and Keras to achieve a high classification accuracy of 94% and 0.19 loss on the test set.

Kalimati Market Monitor

- Developed a Streamlit-based dashboard to visualize and analyze fruit and vegetable price data from the Kalimati Market in Nepal.
- Applied data mining and preprocessing techniques to collect, clean, and aggregate daily market data for trend and price modeling.
- Designed an interactive interface featuring charts, forecasts, and a map layout for clear insights into market trends and spatial context.

Recipe Website

- Developed and deployed a full-stack web application using the MERN stack, implementing RESTful APIs and secure user authentication with JWT.
- Designed and integrated responsive front-end components with React and managed state efficiently using hooks and Axios interceptors, ensuring smooth client-server communication.
- Improved scalability by optimizing MongoDB queries and handling token refresh logic.

Social Mind

- Developed a full-featured social media app using Flutter for a cross-platform interface and Firebase for the backend.
- Implemented user authentication with Firebase Auth, allowing users to sign up, log in, and manage sessions securely.

SKILLS

Programming Languages: Python, C, C++, JavaScript, Dart

Frameworks: React, Express JS, Flutter, Firebase, .NET Core, TensorFlow

Databases: PostgreSQL, MongoDB

Tools: Git/GitHub, REST APIs, Full-Stack Development, Debugging & Testing, Object-Oriented Programming, .NET CLI

Other: Analytical Thinking, Communication and Teamwork, Time Management, Adaptability
